

Improved parts

Homepage :

- Adding 3 more section : item cards(images), carousel and contact form
- Adding a wave SVG and different colors background to divide sections
- Adding hover to item images
- Adding JavaScript to validate the form
- Adding search, login, and cart items to the navbar

LearnEnglish :

- Making the carousel automated to tilt a little when hovering
- Adding background color
- Add a 3-item card and make both images and the title animate when hovering. Images will zoom a little, and titles will gain a purple background

About US :

- Give a background color
- Make about us an absolute position and place in the middle with a background of the same as the body to make it something like the 3D title
- Adding Social media icons

LearnEnglish :

- Make a background picture for the whole body
- Give a JavaScript validation to the form

Courses :

- Adding a title inside the hero image
- Adding another section with a colored background includes 2 cards and an animation hover style. When hovering, it will zoom a little, gain a dark overlay, and a button will appear at the bottom middle of it.

Books :

- Adding a carousel with a title and description
- Adding an item list section with 4 items in each row, and each item will zoom a little after hovering

Learning Hub :

- Adding a colored background and a section with two rows, each row having a text title and description alongside an image. These rows are opposite each other.

IELTS & Pre-IELTS :

- Adding a hero image and a Bootstrap table that contains 9 columns and many rows.
